SUMMARY

Senior Frontend Engineer with 9+ years building scalable web apps in TypeScript, React and Next.js. Strong in frontend architecture: design systems, data-heavy UIs, caching and performance, SSO/RBAC. Also builds backend endpoints with Node.js, Express and Next.js API routes.

EXPERIENCE

Senior Frontend Engineer, AgyleOS

Remote (Istanbul, Türkiye; Berlin since Dec 2024) · Mar 2023 – Present

HR platform with 400+ customers to date.

- Build data-heavy HR dashboards in React and TypeScript; built the caching layers and custom hooks that cut load time from 3.5 s to ~1.4 s.
- Designed the architecture of the component library and design system (Storybook, Tailwind CSS) and built it; it reduced UI defects by 30% and sped up feature delivery.
- Integrated Keycloak SSO with role-based access control for enterprise tenants, tightening security and simplifying sign-in.
- Enforce WCAG accessibility standards and work with design in Figma; usability tests showed higher task success rates.
- Mentor developers in an 8-person team through structured code reviews and pair programming.

Senior Frontend Engineer & Team Lead, Londonist

Istanbul, Türkiye · Jan 2022 – Mar 2023

- Built and led the Student Portal (property and expense management) used by thousands of UK-based students; reworked UX flows reduced support tickets by ~20%.
- Led 3 engineers within a 30-person team and set the architecture and code review guidelines, which made onboarding faster and the codebase more consistent.
- Built the OAuth authentication flows and CI/CD pipelines that made weekly deployments possible.
- Introduced Jest and Cypress testing standards, reducing regressions by 30–40%.
- Integrated B2B partner APIs such as ingresso.co.uk and public GraphQL APIs to show UK tourism and entertainment listings.

Frontend Team Lead, G Corporation

Rasht, Iran · Dec 2019 – Dec 2021

- Led the frontend team for mehrtakhfif, a discount-coupon platform, building the consumer site in React and Next.js and running code reviews.
- Built Node.js/Express and Next.js API route endpoints and worked with the backend and design teams to ship new features.
- Built reusable React components and improved page performance and SEO for the e-commerce site.

Frontend Developer, Eris Rayanesh Afzar

Rasht, Iran · Jun 2017 – Nov 2019

- Built 30+ client websites with custom WordPress themes and JavaScript components.
- Delivered responsive, cross-browser layouts and worked on page speed and SEO.
- Worked directly with clients to turn their requirements into finished sites.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML/CSS

State & data: Redux Toolkit, React Query, GraphQL, REST

Backend: Node.js, Express, Next.js API routes / server-side rendering

Auth: Keycloak, OAuth2, role-based access control

Testing: Jest, Cypress, Playwright, Testing Library

UI & Design: Tailwind CSS, Storybook, Figma, Accessibility (WCAG), Design Systems

Practices: CI/CD, Performance Optimisation, Code Review, Mentoring

EDUCATION

Bachelor's Degree in Software Engineering, Ahrar University, Rasht, Iran · 2013 – 2018
